GSA AdvantageSelect Offers the Right Product, Right Now

- **No further competition necessary**
- **Better prices and streamlined process**
- **More products, more competition, more often**

GSA AdvantageSelect offers pre-competed commodities for purchase by all Government Buyers without any further competition. Leveraging one of GSA's flagship portals, GSA Advantage!, GSA is making it easier than ever for Government Buyers to get the right product, right now. Just how easy? So easy that purchases through GSA AdvantageSelect can be completed in less than 60 seconds.

Under the GSA AdvantageSelect program, GSA conducts upfront competitions to establish short-term, single-award agreements for recurring, high volume, commercial items that Government buyers can order from directly without having to perform any further competition regardless of dollar value.

These commercial items are organized into overarching commodity categories to make it easier to find the items you need. We currently have 3 categories of products available.

Government-wide Strategic Solutions (GSS) for IT Products

The Government-wide Strategic Solutions (GSS) for IT Products category includes laptop and desktop products compliant with the GSS standard configurations approved by the Workstations Category Team (WCT). The current set of BPAs offer Version 4 compliant machines:

- **Dell Laptops and Desktops**
  The current Dell BPA includes 18 models from the Latitude, Precision and Optiplex lines of business machines. The laptops and tablets are available in multiple screen sizes and the desktops are available in multiple form factors.
- **HP Laptops and Desktops**
  The current HP BPA includes 18 models from the Pro and Elite series for laptops, desktops, and tablets. The laptops and tablets are available in multiple screen sizes and the desktops are available in multiple form factors, including the EliteOne all-in-one form factor.
- **Lenovo Laptops and Desktops**
  The current Lenovo BPA includes 6 models from the Thinkpad and Thinkcentre series for laptops and desktops. The laptops and tablets are available in multiple screen sizes and the desktops are available in multiple form factors.

IT Hardware Products

The IT Hardware Products Category offers a range of IT hardware items including ruggedized laptops and tablets, monitors, large format displays, networking, storage, and datacenter items. The current IT Hardware BPAs cover the following items:

- **Monitors**
  - Samsung and Hyundai in sizes 22", 24" 27" and 32"
  - Large Format Displays from LG and Samsung in 55", 65" and 86"
- **Ruggedized Laptops and Tablets**
  - Getac 10 Rugged Tablets and Convertible Notebooks Models
  - Panasonic 29 Rugged and Semi-Rugged Notebook, Convertible, and Tablet Models
  - Dell Four Rugged & Extreme Rugged Laptops and Extreme Rugged Tablets

IT Software Products

The IT Software Products Category offers a variety of software products including End User Licensing Agreements (ELAs), and software as a service. The current item offered is:
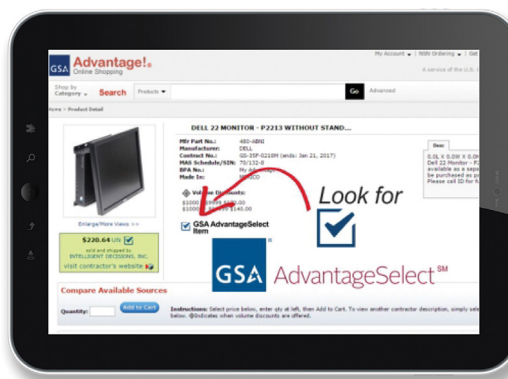

- **VMWare ELA**
  The current BPA for VMWare Enterprise License Agreements (ELAs) is a bundled SKU with a one year base period and two one-year option periods. The BPA also incorporates negotiated terms and conditions.
